

Public consultation on strengthening the quality of corporate reporting and its enforcement

Fields marked with * are mandatory.

Introduction

This consultation is now available in 23 European Union official languages.

Please use the language selector at the top of this page to choose your language for this consultation.

High quality and reliable corporate reporting is of key importance for healthy financial markets, business investment and economic growth. The [EU corporate reporting framework](#) should ensure that companies publish the right quantity and quality of relevant information allowing investors and other interested stakeholders to assess the company's performance and governance and to take decisions based on it. High quality reporting is also indispensable for cross-border investments and the development of the [capital markets union \(CMU\)](#).

In the context of this consultation, corporate reporting comprises the financial statements of companies, their management report that includes the non-financial and corporate governance statements and country-by-country reporting. It would also include sustainability information pursuant to the [proposed Corporate Sustainability Reporting Directive](#).

The consultation takes into account the outcomes of the [2018 consultation on the EU framework for public reporting by companies](#) and the [2021 fitness check on the EU framework for public reporting by companies](#). This consultation however focuses on companies listed on EU regulated markets (hereafter 'listed companies' or 'issuers'), that is a subset of the companies subject to public reporting requirements under EU law. Please note that in terms of reporting, this consultation does not seek the views of stakeholders on the applicable accounting standards, such as International Financial Reporting Standards (IFRS) or the standards in the Accounting Directive, or the views of stakeholders on public country-by-country reporting or the Commission's proposal for a Corporate Sustainability Reporting Directive.

The 2018 consultation did not cover the areas of corporate governance or statutory audit. Therefore, this consultation contains questions to evaluate aspects of the [Audit Regulation 537/2014](#), [Audit Directive 2006/43/EC](#) and of [Accounting Directive 2013/34/EU](#). However, it covers the EU framework on corporate governance only in so far as relevant for corporate reporting by listed companies and the statutory audit of so-called public interest entities (PIEs). Listed companies, credit institutions, insurance undertakings and entities designated as such by Member States are PIEs.

This consultation also builds on the work carried out by the [European Securities and Markets Authority \(ESMA\)](#) and the [Committee of European Audit Oversight Bodies \(CEAOB\)](#).

This consultation is divided into 5 parts

- The first part seeks your views about the overall impact of the EU framework on the three pillars of high quality and reliable corporate reporting - corporate governance, statutory audit and supervision. It also seeks your views about the interaction between the three pillars
- The second part of the questionnaire focuses on the corporate governance pillar, as far as relevant for corporate reporting. It aims to get your feedback in particular on the functioning of company boards, audit committees and your views on how to improve their functioning
- The third part focuses on the statutory [audit pillar](#). The first questions in this part aim at getting your views on the effectiveness, efficiency and coherence of the EU audit framework. It focuses in particular on the changes brought by the [2014 audit reform](#). Subsequently, the questions aim to seek views on how to improve the functioning of statutory audit
- The fourth part asks questions about the supervision of PIE statutory auditors and audit firms
- Finally, the consultation will ask questions about the supervision of corporate reporting and how to improve it

This consultation will directly feed into an impact assessment that the Commission will prepare in 2022 with a view to possibly amend and strengthen the current EU rules.

Please note: In order to ensure a fair and transparent consultation process **only responses received through our online questionnaire will be taken into account** and included in the report summarising the responses. Should you have a problem completing this questionnaire or if you require particular assistance, please contact fisma-corporate-reporting@ec.europa.eu.

Part I - The EU framework for high quality and reliable corporate reporting

The EU framework for corporate reporting has developed significantly since the EU adopted the [fourth company law Directive \(Directive 78/660/EEC\)](#) which coordinated the national provisions on the presentation, content and publication of annual accounts and management reports of limited liability companies. This Directive also already required a statutory audit of the annual accounts of limited liability companies.

Today, the [Accounting Directive 2013/34/EU](#), the [Statutory Audit Directive \(2006/43/EU\)](#) and [Audit Regulation \(537/2014\)](#) and the [Transparency Directive 2004/109/EC](#) provide the main requirements that ensure the quality of corporate reporting and its enforcement in the EU. Moreover, the [ESMA Regulation \(EU\)1095/2010](#) gives tasks to ESMA in relation to corporate reporting. Given the inclusion of the Transparency Directive in the scope of the ESMA Regulation ESMA can make use of its powers in the ESMA Regulation, such as to issue guidelines.

The main elements of this framework that guarantee the quality and reliability of corporate reporting can be summarised as follows

- **C o r p o r a t e** **g o v e r n a n c e :**
Responsibility of company boards for corporate reporting; the establishment by PIE's of an audit committee to minimise risks and to enhance the quality of financial reporting
- **A u d i t :**
The requirements for a statutory audit of the annual accounts to ensure that there are no material misstatements
- **S u p e r v i s i o n :**
The supervision of statutory auditors and audit firms to ensure the quality of audits and the supervision of corporate reporting by listed companies to ensure the quality of corporate reporting

The three pillars of the corporate reporting framework can be mutually reinforcing. At the same time, weaknesses in one pillar also negatively impact other pillars. Appropriate responsibilities and supervision of company boards provide incentives to company boards to focus on the quality of their corporate reporting. It will also incentivise them to see statutory audit not as a burden, but as an important external check by statutory auditors. On the other hand, where company boards are insufficiently accountable and supervised, there is a risk that boards may pay insufficient attention to the quality of reporting and that they provide insufficient resources for a proper audit.

- **is there room to improve efficiency via further simplification?**
- **are existing provisions coherent with each other?**

BETTER FINANCE and its member organisations representing individual, minority shareholders sees the framework for sound functioning and trustworthy listed issuers as comprising three key dimensions: first, sustainable corporate governance; second, robust statutory audit market; and sound supervision, both of listed issuers and of auditing firms.

In terms of corporate governance, we believe that it represents the most important dimension as fraud can be prevented or identified the easiest within the company itself. For this, EU law must harmonise legislation across Member States to ensure the independence of internal (governing) bodies within listed issuers, particularly those who are responsible for the sound management of the company, and further empower minority shareholders.

Regarding statutory audit, the solutions adopted so far have not improved the situation and many local markets are still characterized by oligopolies of large audit firms. The lack of harmonization in terms of the applicable framework across the EU and inconsistent supervision further creates regulatory arbitrage and different standards of investor protection. In addition, we see the lack of questionable audit quality as a significant hamper retail investments in listed companies and trust. The Wirecard scandal is an unfortunate example of the lack of quality audit as it could have been prevented.

One potential solution, supported by BETTER FINANCE, is that of joint audits, which will ensure better quality of statutory audits, less conflicts of interests, and will create the necessary conditions for new market entrants to break the oligopoly.

In terms of supervision, we often observe inconsistencies at national level in terms of which public authorities are responsible for this role. EU law should harmonise this approach and provide further powers to ESMA to ensure supervisory convergence.

The [ESMA report on enforcement and regulatory activities of European enforcers in 2020](#) notes that supervisors undertook the examination that year of 729 financial statements drawn up in accordance with International Financial

Reporting Standards (IFRS). Based on these examinations, European enforcers took enforcement actions against 265 issuers in order to address material departures from IFRS. This represents an action rate of 38%.

As regards the audit sector the [Commission's market monitoring report](#) highlights deficiencies in audit firms' internal quality control systems, but also in individual files for audits of PIEs. National audit oversight bodies also report that part of statutory audits is not up to standards.

Question 3. Based on your own experience how do you assess the quality and reliability of corporate reporting by listed EU companies?

- 1 - Very low
- 2 - Low
- 3 - Medium
- 4 - High
- 5 - Very high
- Don't know / no opinion / not applicable

Question 3.1 Please provide concrete examples and evidence supporting your assessment in question 3 and explain the consequences that the quality and reliability of corporate reporting or lack thereof has on you.

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The reliability of corporate reporting comes more and more into question given the recent "scandals" or frauds surfaced by investigators and journalists, not by those who were responsible of detecting them (auditors or supervisors).

Question 4. There are no generally accepted standards or indicators to measure the quality of corporate reporting and of statutory audit, nor the effectiveness of supervision. In light of this, what are your views on the following questions?

	1 (strongly disagree)	2 (rather disagree)	3 (neutral)	4 (rather agree)	5 (strongly agree)	Don't know - No opinion - Not applicable
Would it be useful to have specific indicators to measure the quality of corporate reporting, of statutory audits and the effectiveness of supervision?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Is it possible to have clear and reliable indicators to measure the quality of corporate reporting, of statutory audit and the effectiveness of supervision?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Should the European Commission develop indicators on the quality of corporate reporting, of statutory audits and the effectiveness of supervision?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Question 4.1 Please provide any further explanation supporting your views, and, where relevant, please suggest possible indicators of the quality and reliability of corporate reporting, statutory audit and supervision, where possible with concrete examples:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

In our view, the issue always starts within the company: its governing bodies, and those responsible for its sound functioning, are the first liable for any fraud. In this sense, a set of indicators measuring the quality of corporate reporting could provide guidance – internally – on the sound and sustainable governance (for instance, for shareholders). Second, if frauds are detected, it is paramount that public authorities and shareholders can assess the liability of auditors in face of undetected frauds. For this reason, we find highly relevant a set of indicators measuring the quality of statutory audits. Lastly, the same reasoning for audits – in terms of the set of indicators, should be applied for supervision.

BETTER FINANCE supports a harmonized set of indicators to be developed by the European Commission as a directly applicable regulation across the EU.

Question 5. In your view, should the Commission take action in the areas of the corporate governance pillar, the statutory audit pillar, the supervision of PIE auditors and audit firms and the supervision of corporate reporting to increase the quality and reliability of reporting by listed companies?

- Yes, there is a need to improve the **some or all of the areas listed above**
- Yes, there is a need to improve some or all of the areas listed above **as well as other areas**
- No, but there is a need to improve other areas than those listed above
- No, there is no need to take further action in any area
- Don't know / no opinion / not applicable

Please indicate to what extent you think the Commission should take action in each of the areas below to increase the quality and reliability of reporting by listed companies:

	1 (strongly disagree)	2 (rather disagree)	3 (neutral)	4 (rather agree)	5 (strongly agree)	Don't know - No opinion - Not applicable
Improve the corporate governance pillar	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improve the statutory audit pillar	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Improve the supervision of PIE auditors and audit firms	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improve the supervision of corporate reporting	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 5.1 Please provide any further explanation supporting your views, and where appropriate describe what actions you would prioritise and why, with concrete examples:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

It is essential to focus on the first two dimensions, i.e. 1) corporate governance, particularly by further empowering individual, minority shareholders, and improving supervisory convergence of corporate reporting, and also by measures such as making audit committees mandatory for PIEs, and 2) statutory audits. One measure to improve statutory audits is by breaking the oligopoly of the audit market and introducing joint audits. In addition, we see benefits in further harmonizing non-audit services and introducing mandatory rotation rules and harmonizing them across the EU. Listed companies should have a real choice when it comes to statutory audits (further than the “big four”).

Question 5.2 At what level should action be taken to improve the quality of corporate governance, audit, audit supervision and/or supervision of corporate reporting?

	1 (strongly disagree)	2 (rather disagree)	3 (neutral)	4 (rather agree)	5 (strongly agree)	Don't know - No opinion - Not applicable
Companies themselves should take action to improve their reporting	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Auditors themselves should take action to improve audits	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Audit supervisors themselves should take action to improve their functioning	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Individual Member States should take action if the situation in their market requires this	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The EU should take action	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Question 5.3 Please provide any further explanation supporting your views expressed in question 5.2:

Part II - Corporate governance

The EU corporate governance framework focuses on the relationships between company boards, shareholders and other stakeholders, and therefore, on the way a company is managed and controlled. The framework consists of a combination of EU and Member State legislation and soft law, namely national corporate governance codes applied on a 'comply or explain' basis. It aims inter alia to provide protection for shareholders and other parties with a particular interest in companies, such as employees and creditors.

A [sustainable corporate governance initiative](#) is planned to be adopted by the Commission in 2021. (In addition, the [Commission's study on directors' duties and sustainable corporate governance, July 2020](#), assesses the root causes of 'short termism' in corporate governance and discusses their relationship with current market practices and/or regulatory frameworks).

Key features of the EU framework on corporate governance that are relevant for corporate reporting are

- The collective responsibility of the members of the administrative, management and supervisory bodies of a company for drawing up and publishing annual financial statements and management reports
- The requirement for a statement by the persons responsible within the issuer that, to the best of their knowledge, the financial statements prepared give a true and fair view of the assets, liabilities, financial position and profit or loss of the issuer
- The requirement for PIEs to establish, in principle, an audit committee

As regards the audit committee, we consider it helpful to ensure that the committee is legally enabled to hold (more) meetings with the auditor without the management board /executive board members to strengthen the (independent) discussion. Furthermore, a legal obligation to have at least two financial experts on the supervisory board/among non-executive board members would improve the expert exchange with the auditor and the management, which is indispensable. In addition, the audit committee chair in our view should be required to be independent. Last but not least, shareholder engagement could be strengthened by granting shareholders the right to question the auditor directly at the general meeting.

Question 8. Considering the level of material departures from IFRS reported in the [ESMA report on enforcement and regulatory activities of European enforcers in 2020](#), to what extent can such departures be attributed to deficiencies of the EU framework on corporate governance?

Part III - Statutory audit

The overall objective of statutory audits is to ensure that financial statements are free from material misstatements and provide a true and fair view. The auditor has to identify and assess the risk of material misstatements and gather sufficient and appropriate audit evidence as the basis for his opinion that the financial statements provide a true and fair view and to publicly report on the results of his audit work. The EU audit rules promote audit quality and seek to ensure the independence of auditors and audit firms.

Therefore, the final objective of statutory audit is to contribute to the quality and reliability of financial statements of companies.

The current rules aimed to ensure the independence and quality of statutory audits in the EU have failed to reach their objective. In this sense, BETTER FINANCE proposes:

- EU law should harmonise the rules applicable to engagement and rotation periods across Member States, as well as the list of non-audit services;
- and
- Introduce mandatory joint audits for PIEs;

Question 12. To which extent you agree to the following statements?

	1 (strongly disagree)	2 (rather disagree)	3 (neutral)	4 (rather agree)	5 (strongly agree)	Don't know - No opinion - Not applicable
I. Statutory audits contribute as much as is possible to the quality and reliability of corporate reporting by PIEs	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
II. I am satisfied with the role of the statutory auditors / audit firms of PIEs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Mandatory joint audits bring several advantages:

- Implementation of the “four eyes principle”, decreasing the risk of errors or omissions;
- better (balanced) allocation of responsibilities and tasks between the auditing firms;
- better (and mor) communication with the governing bodies of the audited company, particularly with shareholders (see BETTER FINANCE position paper on the Audit Review)
- ability to co-review the work of each auditor, increasing the chances to spot errors and improve the audit work;
- higher responsibility (and reliability) of audit opinions, deriving from the joint signing (co-signing) of the opinion once the process is over;

The audit quality issues that occur most often at EU level are

- deficiencies in audit firms' internal quality control systems
- the lack of, or inappropriate, monitoring of high-risk audited entities
- and the lack of audit evidence and documentation.

Question 13. To what extent can these quality issues be attributed to deficiencies in the EU legal and supervisory framework for statutory audit?

- 1 - Not at all
- 2 - To a limited extent
- 3 - To some extent
- 4 - To a large extent
- 5 - To a very large extent
- Don't know / no opinion / not applicable

- Yes
- No
- Don't know / no opinion / not applicable

Question 14.2 Please provide any details to support your views. Any evidence, including on expected benefits and costs of such action is welcome:

Part IV - Supervision of PIE statutory auditors and audit firms

National competent authorities are responsible for the approval and registration of statutory auditors and audit firms, the adoption of audit standards, quality assurance and investigative and administrative disciplinary systems.

At European level, the cooperation between competent authorities is organised within the framework of the [Committee of European Audit Oversight Bodies \(the 'CEAOB'\)](#). The CEAOB has different tasks aimed at supervisory convergence, but it has no power to take binding decisions (Article 30 [Audit Regulation](#)).

Question 15. How do you assess the effectiveness, efficiency, and coherence of the key features of the EU supervisory framework for PIE statutory auditors and audit firms?

a) The supervision of PIE statutory auditors and audit firms in the EU

I. Effectiveness in reaching its objectives	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

III. Coherence with relevant EU rules	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 15.1 Please describe the main issues you see, if any, in relation to the supervision of statutory auditors and audit firms and, where possible, please provide concrete examples and evidence supporting your assessment. You may want to consider the following aspects

- **are there factors that have reduced the effectiveness / rendered the relevant EU framework less effective than anticipated? Which rules have proven less effective than anticipated?**
- **is there scope to improve efficiency via further simplification?**
- **are existing provisions coherent with each other?**

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

We consider it helpful to strengthen the CEAOB for example by enabling it to conduct peer/independent reviews.

Question 16. Considering the findings in the [Commission monitoring report](#) and reports of national audit oversight bodies how would you rate the quality of audit supervision?

- 1 - Very low
- 2 - Low
- 3 - Medium
- 4 - High
- 5 - Very high
- Don't know / no opinion / not applicable

16.1 If you want to add any comments and/or provide evidence for your assessment in question 16, you can provide it below. You may also include the consequences that your assessment of the quality of audit supervision or the lack thereof has:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The quality of audit supervision – both at a local level and cross-border – does not seem optimal in the current framework: the high degree of flexibility awarded at national levels creates the risk of regulatory arbitrage and goldplating by competent authorities. EU law should further harmonise this area and grant ESMA supervisory convergence powers.

Question 17. How effective and efficient would the following actions be to increase the quality and effectiveness of supervision of PIE statutory auditors and audit firms?

a) Ensure better the independence and appropriate resources of supervisors of auditors and audit firms

	1 (not at all effective/ efficient)	2 (rather not effective/ efficient)	3 (neutral)	4 (rather effective/ efficient)	5 (very effective/ efficient)	Don't know - No opinion - Not applicable

II. Efficiency in term of cost/benefits of action	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Question 17.1 Have you identified other actions that would effectively and efficiently increase the quality and reliability of supervision of PIE statutory auditors and audit firms?

- Yes
- No
- Don't know / no opinion / not applicable

17.1.1 Please specify to what other action(s) you refer in your answer to question 17.1:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

In BETTER FINANCE's view, there is a need to harmonise the practices of national competent authorities supervising auditors and audit practices. In this sense, we see beneficial to expand the competencies and role of national audit supervisors to encompass the supervision of audit on sustainability matters, which would further imply further expanding the supervisory convergence role of the CEAOB.

Question 17.2 Please provide any details to support your views. Any evidence, including on expected benefits and costs of such action is welcome:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Part V - Supervision and enforcement of corporate reporting

The supervision and enforcement of corporate reporting refers to the examination by competent authorities of listed companies' compliance with the disclosure obligations stemming from the applicable reporting framework, as well as taking appropriate measures when infringements are identified.

Based on enforcement activities by national competent authorities, ESMA reports a significant level of material misstatements. In the follow up of the Wirecard case and based on its experience, ESMA recommended a number of actions to improve the enforcement of corporate reporting ([see ESMA letter of 26 February 2021 to the Commissioner McGuinness on next steps following Wirecard - ESMA32-51-818](#)).

The [Transparency Directive](#) includes a number of requirements relating to supervision of corporate reporting

- the designation of a central competent authority in each Member State. For the enforcement of corporate reporting, Member States may designate a competent authority other than the central authority and/or delegate tasks to other entities
- national central competent authorities must be independent from market participants. There are no specific provisions as regards the independence of other designated authorities. As regards entities with delegated tasks, the entity in question must be organised in a manner such that conflicts of interest are avoided and information obtained from carrying out the delegated tasks is not used unfairly or to prevent competition
- Member States must provide competent authorities with certain powers, including investigative powers
- ESMA is tasked to foster supervisory convergence as regards the enforcement of financial statements prepared in accordance with the IFRS. For this purpose it has adopted in [2014 guidelines on the enforcement of financial information](#)

This part of the consultation complements the [Commission targeted consultation on the supervisory convergence and the Single Rulebook](#) from 12 March 2021 to 21 May 2021.

Question 18. Considering the level of material departures from IFRS in the financial statements of listed companies found in the [ESMA report on enforcement and regulatory activities of European enforcers in 2020](#), how would you rate (on a scale of 1 to 5) the degree to which such departures can be attributed to deficiencies in the EU supervisory framework?

- 1 - Very low
- 2 - Low
- 3 - Medium
- 4 - High
- 5 - Very high
- Don't know / no opinion / not applicable

18.1 If you want to add any comments and/or provide evidence for your assessment in question 18, you can provide it below. You may also include the consequences that your assessment of the quality of audit supervision or the lack thereof has:
